

Meghan Dickey

REALTOR 804.908.2902 MeghanDickey@SRMFRE.com

What is your favorite thing about Richmond?

Richmond is so unique and diverse! I love that I can go for a walk to a neighborhood coffee shop, restaurant, or playground with my kids! Richmond allows you to go for a river hike, enjoy thrilling college sports, and enjoy amazing restaurants and breweries all in one day!

What initially drew you to real estate?

Real estate allowed me to spend time with new people and that is the best part of what I do, getting to learn and grow and everyday is a new adventure!

Why is relationship building so key to your success?

It is the only thing that matters, my reputation is my number one, it is all that matters in this industry and I will always lead with that!

How does your background/previous experience bring a unique perspective to your work?

I have been selling real estate since 2013 and being able to see different markets and the ups and downs of the industry has allowed me to be prepared for whats next and use my experience to make educated and thoughtful decisions to help out clients.

How do you help clients navigate challenging market conditions or uncertainties?

I have personally navigated many different types of real estate market conditions and I feel that being about to pivot and adjust not only our strategy but our mindset is so important in being on the cutting edge. I am constantly learning and growing as a Realtor and will never allow myself to get complacent.

What is your mission statement?

At Meghan Dickey Real Estate, our mission is to be an experienced and friendly partner to buyers and sellers. Our goal is to be more than just real estate agents; we strive to be a friend and advocate throughout the entire process and beyond.

Tell us about any non-profit or community organizations that you support.

Meghan has served on the Development and ASK Ambassador Committees for ASK Childhood Cancer Foundation which is a wonderful local non-profit in Richmond that helps to make life better for children with cancer and their families.
