## Q & A

### ***What is your favorite thing about Williamsburg***

I love the small-town friendly charm of Williamsburg. Life moves a little slower here and people take the time to stop and say hello or throw a smile and wave your way. However, just because it is small, doesn't mean that it has everything you will find in larger cities. Every weekend and often during the week you can find something great that appeals to you. Music festivals, art shows and other festive events are common throughout the year.

### ***How does your background bring a unique perspective to your work?***

As an Army mom with 13 moves in 25 years under my belt, I understand the difficulties of moving and strive to make things as seamless as possible for my clients. I love to share my own personal experiences with moving and convenient hacks for organizing a move and setting up a new home as quickly as possible.

### ***What's most important to you in your business?***

Client satisfaction is my number one goal. I rely on a great team to provide the best possible support to my clients. My clients can always expect honesty, loyalty, and dedication throughout the entire process and beyond. Customer service never ends at the sale for me. Once I work with someone, I strive to be their Realtor® for life.
